FABULOUS MINES OF GOLD

Yet Many a Weary Toller Returns ta Dawson City Empty Handed.

SAN FRANCISCO, September 1.—The Biddelin has received a letter from Charles Haines, dated Dawson City, July 26th. Mr. Haines is a well known newspaper writer and his letter is the first written by a newspaper man to come out of the Klandyke gold regions. He save:

He says:

"The rich diggings have been comparatively idle during the summer, although the output from El Dorado and onauza creeks was enormous and there is plenty of gold in sight. There is every prospect of an immense output of gold from the district next spring. The gold from the district next spring. The total output this season is, as near as i can judge, about \$7,000,000, but very little ground has been worked and the dumps will, like some of the tailings old California placers, par out thousands of dollars when worked with improved machinery.

old dollars when worked with improved machinery.

"The placers are the most puzzling and deceiving I have ever seen. Impaired a machine and machine and machine and machine and machine and most with no surface indications and unearthing a bonanza. That is the situation here and all over Alaska. The man who comes here to minu dece so at the expense of health and happiness and it is with him a question of making a fortune quickly or taking changes with death.

"About no are scores of men who can weight their gold by the bucketful, and who valuationed the their change are stretched along the creeks and every digning is a labulous minu of gold, yet there are weary mon who have concand returned to Dawson utter concluding the great country herabout, and never a mugget do they show for their toil, their long trang over broken ground, and into a country whose natural disadvantages are exceeded by no other place on earth.

"The gold that will go down the river for San Prancisco and Seattle will amount to about \$2,000,000. There is a lot of gold that will remain in camp for it is used as an equivalent of money and is legal tender at \$17 per outnee. Of the 3000 or \$4000 inhabitants only a couple of hundred at the most have made hig strikes. There is plenty of work at from \$15 to \$20 per day and many men have paid \$2.50 per day and many men have paid \$2.50 per day and many men have paid \$2.50 per day and many nen have paid \$2.50 per day or less for living, and saved the halance. "Seports of other strikes are constantly received here, and many are authorite so far as Stewert and Pelly rivers are causerned, but nothing like so rich as the Klondyke has been reported. Unite a number of people are proted, Unite a number of people are good grant supply a not uncouraging. "In conclusion, the Alsaka and northwest territory gold fields will be devaloped slowly. Ten thousand men may cans here, but they will be not in the wast country when they spread out to make, in years to come, when at the scrifte of hunnan life and energy the treasures of this great land are located, the wealth of the North will be held heyond comprehension."

DYEA AND SKAGUAY.

Interesting Condition of Affairs at

the Landings.

Pour Toursers, Wash., September I.—The etcumer Farallone arrived to might six days from Dyea and Skagnay. The others of the steamer tell interesting stories of the condition of affairs at both landings. There are that at Drea ing stories of the condition of affairs at both landings. They say that at Dyes he people are slowly but surely crossing the divide, and the road for teamiles up the canyon is strewn with test, provisions, discarded baggage and dead horses. Lees than 1000 people are on the beach at Dyes, as all make efforts to get across the divide as soon as landed.

on the beach at Dyes, as all make efforts to get across the divide as soon as landed.

At Skaguav things present a different appearance, there being between 5000 and 6000 neople at that place. Less than fitty men have succeeded in getting across White Pass and hundreds have given up trying to cross until spring. The steamer's affiners say that rain has tallen continuously there for eight days and that it is utterly impossible to cross.

All kinds of business is flourishing. Many men are selling outlits for little or nothing, while others are buying everything offered for sels and esing the same to stock general retail stores, which they are setting up on the beach. A seleon keeper at Dyna is buying flour, emptying it in a heap in a tent and selling the empty sacks at 75 cents each.

The Farallane others deny that a man was killed at Skagnay for stealing, but say that in ares of thest death would be the portion of the person se cargaed.

Nebraska Silver Forces Hold Conventions.

FUSION COMMITTEE'S REPORT

Democrats Fearful That They Will Not Get Their Share of the

Offices.

Lincoln, Neb., September 1.-The ripartite alliance of the Nebraska free silver forces was given good headway to-day by three large conventions held respectively by the Democrats, Populists gatherings, conducted under three sepgatherings, conducted under three sep-arate organizations, acted in perfect harmony, and when routine work had been disposed of, the representatives of the united parties gave their attention to addresses by leading free silver ad-vocates. The nomination of a fusion stato ticket seems assured.

state tinket seems assured.

During the morning the Democratic state control committee agreed upon C.

A. Shallenberger of Alma for temperary chairman; the silver Republicans selected F. F. Lomis of Omahu for the chairman; the silver Republicans selected F. F. Lomis of Omsha for the same position, and the Populist state convention decided to leave the election of a temperary chairman to the convention. The three conventions were called to order at 2 o'clock this aftermoon, the Populists meeting in the Lameing theatre, the Democrata in the public half and the silver Republicans in the Y. M. C. A. anditorium. Had there been a half in the city targe enough to accommodate the crowd, the three of the conventions would have been marged into one.

The Democratic convention was the most enthuseastic of the three. The limboreatic conventions was the most enthuseastic of the three. The limboreatic convention was the most enthuseastic of the three. The feature of the opening was the declaration of State Onsiruan Dahlman relative to the terms of fusion. Has said:

"We want the Populists to understand that the Democrats demand their blance of the fruits of fusion. We have concreded the balk of the offices to the Populists, but we think we have a right to the supreme judgeship and when this convention appoints its conference committee and adjourns for the afternoon I heat on every delegate working with the Populist bruthrou and organg upon them the accossive of granting at this office.

the office remarks it is apparent that this office."

By these remarks it is apparent that Mr. Dahlman anticipatos come difficulty in effecting a fusion that would be eatlated to be in party, but his fears did not appear to be generally shared. Tomporory Glairman Stallenberger made a lengthy speech. He asserted that the mission of the Democrate is to combat the doctrines of protection and the gold standard for the company of the secondard the gold standard for the company of the secondard the gold standard for the secondard for

the doctrines of protection and the gold standard.

The Populist Convention was thrown into confusion as the delegates ineisted on cheering for their party and their leaders. Temporary Chairman Powers made a short epecit, in which he urgod heremonius action by the allide parties and counseled a spirit of cancillation on the part of the Populists.

The silver Republican convention exhibited very little spirit in exhausting their hung power, and there were simply seats throughout the hall. Temporary Chairman F. W. Luomis made a short speech, urging the forces to keep targetiue and jour hands in an-operating with the two other parties in convention.

speech, urging the forces to keep on gether and join hands in acoperating with the two other parties in convention.

The three conventions than appointed their committees and took a receas.

At 4 o'block the delegates gathered in the state house grounds and listened to a number of indiresses by W. J. Bryan, ex-Congressman Charles A. Towns and General Wavers and others.

Inst before recess permanent chairmon were elected as fullows: Populist convention, W. A. Pointer of house county; Bromecratic convention, Actorney feenoral Smythic of Douglasse county; silver Menublicans, A. J. Wasser of Richardson county.

The Populist convention was called to order at 8.30 o'clock by Chairman Fointer, who took occasion in adminish the deligates to deport themselves as geutlemen and remember the digitity conferred in the ward "Copuliat.

It is estimated that such a bridge can be substantially built of iron and wood be embatantially unit of inches and see as of of fifteen to twenty thousand dollars, according to dimensions and character of material used. The cost should not stand in the way, nor should it be borne alone by the city. The Southern Pacific Company is equally in the cost of the co terested and should bear a fair there of the cost. If the bridge were built on Thlare treet, where it would best sub-serve public convenience, the business of the company in moving its trains of the company in moting he can be and handling its cars would be greatly facilitated. It should pay, and pay liberally for these adventages.

Public convanience and public safety demand the bridging of the Southern Pa-

offic tracks, and there is no reason why the reseits should be longer ignored. The REPUBLICAN hopes that the Farmers' Club and other public organizations of Fresno will join with it in pushing this proposition to a successful issue.

Both the city authorities and the rail-

road officials should be impressed with the importance of acting promptly in a matter of each general interest without difficulty.

Ir is stated in a cable dispatch that Ambaseador Hay is making a series of extended visits among the nobility and gentry in Scotland. The leaders of London society who made his acquaintince dering the jubice season have been eager to have the Ambaesador us a guest, and more invitations to country houses have come to him than he could accept during a whole summer. Mr. Hay has already visited Lord Tweed-such the country to the country than the country than the country to the country that the country the country to the Hay has already visited Lord I weed, mouth, is now the guest of Sir John Clark, and expects in a few days to visit the Earl of Erroll in Aberdeenshira. It is with regret that we express the fear that Mr. Hay's goose is couked. No minister to the court of St. James from this country can bolund with the aristocracy and remain in the good graces; time country can hostonia with the good graces of his liberty-loving, nobility-hating countrymen, Recall Minister Lowell's He loved to associate with the effete British aristorrats, and was denounced from the Atlantic to the Pacific, Janeala, who would also snewer when an earl or a lord addressed him, and would even take his extended hand also became persona non grata at home. A cimilar fate was day we shall have an ambassador to England who will teach the titled folks there their places. A man is needed who will make it a point to let the English know how little we think of their titles, who will be distant with the aristhorats, refuse their invitations to din-ners and insist upon addressing the queen as Mrs. Guelph or some other of her numerous names. Such an ambas-sador would indeed be one this country

The story has it that Mr. Garrett reported the gateman to President Thomas of the railway company and saked that the employe be dismissed. The gateman was discharged the next day, notwithstanding that he had faithfully served the company for five years and that the depot master and general superintendent interceded with Presi-dent Thomas in his behalf. If the story is not made out of whole cloth, later de- the tails will probably put the matter in a different light. The probability is that the gateman was incolent and that he lost his place by his own fault. While the majority of railroad employes are attentive and courieous to travelers, there are some who are gruff, rude and over-bearing, and if Mr. Hobart, who was traveling sea private citizen, saw fit to traveling as a private citizen, saw it to report the man he did both the traveling public and company a service. No senei-ble person will believe that the Vice President had the man discharged be-cause be did his duty, if he had him discharged at a l.

Proving who act upon the apparen ballef that alcohol is the only effective reservative of the human body av laboring under a mistake. Properly iced, they would keep longer and look prettier than they do under the alco-holic treatment. A few days ago near the village of Chamouni at the base of Mount Blanc in Switzerland, there was beld an inquest over the body of an English touriet who was lost in an avainche in the year 1866. During all the intervening years his body, perfectly preserved in the key depths of a glacker, had been slowly and silently borns downward by the irresistible motion of that river of ics, and was revealed to the light of day only when the temperature of a lower attitude caused the ice to yield. In this natural refrigerator the fleen was perfectly preserved, and the blood tions as perfectly preserved, and the blood tions as perfectly preserved, and the blood tions as perfect as though the tragedy of thirty years ago had such that the perfect as though the tragedy of thirty years ago had such that the perfect as the p perature of a lower altitude caused the been of vesterday.

calamityite can only attempt to belittle them. They cannot be denied. But there is still the coal strike, and to that the calamity contemporary clings like a shipwrecked mariner to a broken spar. In its issue of Tuesday it said on the subject:

the subject:

Will these coal miners get their there, or any portion of the additional duty on coal? We do not believe that they will.

"Government by himnetion will cheat them out of it, and the owner of the mine, the capitalist, will get it all. The San Francisco Bulletin, from which the foregoing is taken, no doubt believes it perpetrated something "smart," but to sensible people the paragraph will appear witlers and in bad taste. It would undoubtedly pozzle the Bulletin to explain why association with J. Pierpont Morgan should cause one to become an embezzier, and it would fail still more dismally in trying to point out why such a forcible wrenching of the truth should be regarded as a master-place of wit or humor.

STOCKTON is about to raise the issue as to whether the principal of the public schools shall be permitted to preach on Sunday. The question involved appears to be a simple one. If the principal neglects his work as a teacher for that of the preacher, he should be "called down." If he does not, it is not easy to sas any occasion for a disturbance. MINERS'PROSPECTS BRIGHTER

The evidences of returning prosperity are so general that the most obstinate should have overlooked.

Judge Jones of the emperior court of San Jasquin county must be a scusitive old soot. The plaintiff in a certain cuit neked for a change of venue on the ground lint the judge was biased and prejudiced. The account has it that "Junes took the offidavit very much to heart, and in speaking about it he had to stop coveral times, his voice teconing choked up and tear dowing down his cheek." All this emotion when he might have fined the plaintiff for contempt or punched his head?

As soon as slue has been littled out with suitable clothing she will leave here for New York in charge of Southern Pacific conductors. At Chicago she will be met by members of the Young Women's Christian Association, who will see her safely on her journey to New York. There she will be taken in charge by the New York Ohildren's Society and safely housed up to the fine that the steamer saila. At Liverpool the English Children's Society will meet her and forward her to her home in Rock Perry.

The girl does not know how her parents first came to hear of her condition, but says that there are several English people in the neighborhood of the Stubts camely and natial of them know her story and aftical her, it was probable that one of them writh the Pagiand. The action taken by the British guarament to get her out of the possession of her task makers was brought about by the topresectations made to the foreign olice by one of the members of parliament from Cheshire. The authorities have hear working for eight months to secure her freedom.

John Dore Explains Why Eastern Buyers Are Not Making Offers.

John S. M. Griffin that no offers can be obtained for raising from eastern buyers on basis of 3½ cents in the sweat-box.

"The explanation of that is simple "The explanation of that it emplies mough," said Mr. Bene, "The castern buyers have been deceived by the anti-race of the present crop. They were led to believe that the crop would be a heavy one, and that the packers would be able to give them raising at year low prices."

the crop would be a lierry one, and that he packers would be able to give them raising at very low prices.

"They are acidently not yet gatisfied that the parkers have deceived them, and are availing decelopments.

"The sestern buyers will soon realiza that the grower have been telling the truth, that the packers cannot deliver the cheap goods, and our raisins will be sold without difficulty.

"The packers themselves are to blame for the hestiancy manifestud by exetern huvers. Not a few of them have contracted raisins to them at less prices than they can be had from the grower, but the situation is bound to become clear within a chort while.

"I think the packers have learned comething to their advantage, and will not be found selling short another esagen."

Two of the passengers, who quietly entered a hack after the flurry was over, were presented of a little secret, all their own, which they guarded well. They were Mr. and Mrs. W. R. Thomas of this city. They had been married only a few hours before in San Francisco.

Mrs. W. R. Thomas was multi recently Mrs. Ordis Burnett, residing at 1963 3 street, and well known as the landlady of the most fashiomable boarding hones in the city at that address. Mr. Thomas had been resident in the hones for some time past and the event was not entirely unexpected.

Mr. Thomas, who is a well known broker and notary public, had been on a six weeks' trip to his old home in Kentacky. On his way back he stopped off in San Francisco, where he and Mrs. Burnett were married on Tuesday by Justice Cooke.

Mr. and Mrs. Thomas modestly received the congratulations of a few intimate friende yeslerday alternoou. They expressed a desire to have the usual amounts.
